

CORNERSTONE MOBILE

Improve
workforce
engagement
from any device

As the workplace becomes increasingly mobile, there is an emerging expectation for real-time connectivity and instant access to learning and people. Give your employees, managers, and executives the mobile access to your organization on their devices and they'll work smarter anytime, anywhere. That's what Cornerstone Mobile® is all about, the power of productivity and real-time connectivity. Bring together essential HR functions and the accessibility of mobile with recruiting, learning, performance management, and social productivity.

An easily accessible resource on smartphones and tablets, Cornerstone Mobile serves as an essential tool for your employees, managers and executives to utilize on a daily basis.

Improve
Employee
Engagement

Engage a multi-generational workforce on the devices they love—with resources and content that empower their daily work.

Deliver
Essential
Information

Provide real-time access to mobile learning, performance, recruiting, and collaboration tasks so everyone stays connected.

Extend Mobile
Access

Let mobile serve as the essential tool for your employees, managers, and executives to utilize on a daily basis—no matter where they are.

Give your employees, managers, and executive leadership the mobile access to your organization on their devices and they'll be able to work smarter—anytime, anywhere.

Mobile Learning

Deliver rich mobile-enabled learning and training courses and content for employees on the devices they love.

Mobile Performance

Provide the workforce with the access skills, competency reviews and performance activities anytime, anywhere.

Mobile Recruiting

Keep recruiters in the talent loop with access to review applicants, candidate pipelines, and requisition dashboards.

Mobile Collaboration

Allow each employee to continue collaborating and contributing to projects and tasks—no matter where they are.

Cornerstone Mobile is a secure application natively built and available for Apple and Android device platforms, as well as the mobile web for smartphone browsers.
